

Lyrics

Time

G.Pasquini

Into my veins i can feel the fire
Into my brain i can see your eyes now
No one can stop me now
Nothing's gonna change my world

No one can tell me when it's time to fly away
Let's breaking now all the rules we can

I'm back into my time
We can fly away tonight
I'm back into my time
Just you and me all the time
everytime
I'm back into my time
We can fly away tonight
I'm back into my time
Just you and me all the time
everytime

There is a flashback into my desire
A kind of flame and you now take me higher
Now i can touch the sky
Like the sun can touch my heart

Somebody tell me that i have to face the time
Please, let me fly one more night with you

I'm back into my time
We can fly away tonight
I'm back into my time
Just you and me all the time
everytime
I'm back into my time
We can fly away tonight
I'm back into my time
Just you and me all the time
everytime
